**Visit HASE BIKES at the Eurobike show in Friedrichshafen, Germany,
from August 26-29, 2015: Open Air Grounds B7/1**

Hase Bikes is introducing the new PINO STEPS with mid-drive system.

The Bike for Everything You Love!

Biking, alone or with a friend, child, or partner, fetching beverages for the meeting, or picking up your little one from nursery school on your way home from work. No other bike is as versatile as the PINO STEPS.

The rider on the rear upright seat has everything under control. The passenger or “co-pilot” sits completely relaxed in front. Both enjoy a panoramic, unrestricted view. The PORTER RACK on the lower frame offers space for large cargo. If you’re riding alone, you can further increase your cargo-carrying capacity with the new, lovingly designed CITY BAG on the front seat. And if the going gets tough with all that cargo: simply switch on the Shimano STEPS mid-drive system with the touch of a button on the handlebar display.

The PINO STEPS, developed by Marec Hase and his team of engineers, is even effortless to ride with heavy loads. The 50 Nm of torque pull you up any hill and take the sweat out of cargo or child transport. Thanks to the frame’s low and central center of gravity, the PINO handles like a dream, and the mid-drive system harmonizes perfectly with one or two riders – with no noise or vibration. “Everyone I’ve shown the bike to has been amazed at how seamlessly the e-motor is integrated into the PINO frame,” explained Hase Bikes dealer Monika Schwarz.

The PINO STEPS is the most versatile bike for errands in the city and excursions to the countryside. Riding fun, alone or as a couple, with the capacity to carry along everything you need: father and daughter taking their herb and flower seedlings with them to the garden project or two lovebirds riding to the lake for a relaxing evening with wine and a picnic blanket. The cameraman on his way to a film shoot in the park can pack all of his equipment in the optional 80-liter CITY BAG on the front seat. With its short wheelbase, the PINO is almost as maneuverable as a single-seater. “Regardless of how much cargo it’s carrying, the PINO is always unbelievably fun to ride.” Monika Schwarz was amazed at how easy it was to taxi around her 15-year-old son, Darius, when he hurt his foot and couldn’t pedal. For children from approx. 3’3” (100 cm) in height, there is also an optional children’s crankset that can be mounted in two minutes flat. And when your little tyke is tuckered out – no problem. The front passenger, be it adult or child, has a freewheel. Thanks to the special positioning of the two seats, it’s easy for the riders to discuss which picnic site is best, chat about the latest news from nursery school, or share their thoughts and impressions from the tour. The PINO STEPS is the bike for everything you love!

PINO STEPS

The new PINO STEPS with mid-drive system is pure riding fun: be it solo or tandem, with or without cargo.

PINO STEPS in action

Riding together, sharing experiences and fun: with the children's crankset, the ride to the countryside is a team adventure. And the STEPS motor guarantees riding fun, even on longer trips and with heavy loads.

PRESS RELEASE

CITY BAG

For all PINOs, with or without motor, the City Bag will be available from 2016. It can hold a whole lot of groceries or supplies, and is super practical to use. The waterproof

About HASE BIKES

In 2014, **HASE BIKES** celebrated its 20th anniversary. Since 1994, company founder Marec Hase has been developing innovative tandems and recumbent bikes and trikes that offer exceptional practicality and versatility, along with unparalleled riding fun. The KETTWIESEL “cornering machine” has since attained cult status, and the PINO tandem is the most widely used touring tandem in the world – as well as the most versatile family taxi on two wheels. The KLIMAX trike, with e-assist and Foldable Fairing, is the first fully-thought-through concept for all-weather commuting by pedal power. The HASE BIKES manufacturing facility, with more than 40 employees, is situated on the historical grounds of the former coalmine Zeche Waltrop in the middle of the famous German Ruhr district. Visit www.hasebikes.com for information on the latest HASE BIKES specials and the ideas behind the concepts.
